

PROSLAT

ORGANIZATION

The simplest, strongest wall storage solution

PROSLAT's wall storage solution raises the bar in organizing. Our Canadian-made patented panels are the result of years of research and development. We studied the entire wall storage market for both its strength and weaknesses, then created an industry-leading panel that is stronger, greener, simpler, and less expensive than our competitors.

**Proslat's mission is simple:
Manufacture quality products, deliver professional service.**

One of Proslat's unique features is our flexibility. Our panels may be installed as a track around the garage, a section of a wall or they may cover an entire wall. No matter your needs or your budget, Proslat will fit. Your Proslat wall solution may be changed or added to at any time.

Professional. You can count on Proslat to deliver consistent quality, innovative design, and unbeatable prices – every time. Our commitment to manufacturing the highest quality products while delivering first class customer service, is second to none. Proslat sets a new benchmark for organizing solutions.

Recyclable. You care about the environment and so do we. The three Rs – reduce, reuse, recycle – guide us in our purchasing decisions. We are proud to tell you that we have one of the greenest storage solutions on the market today – our wall panels are made from 90% recycled material.

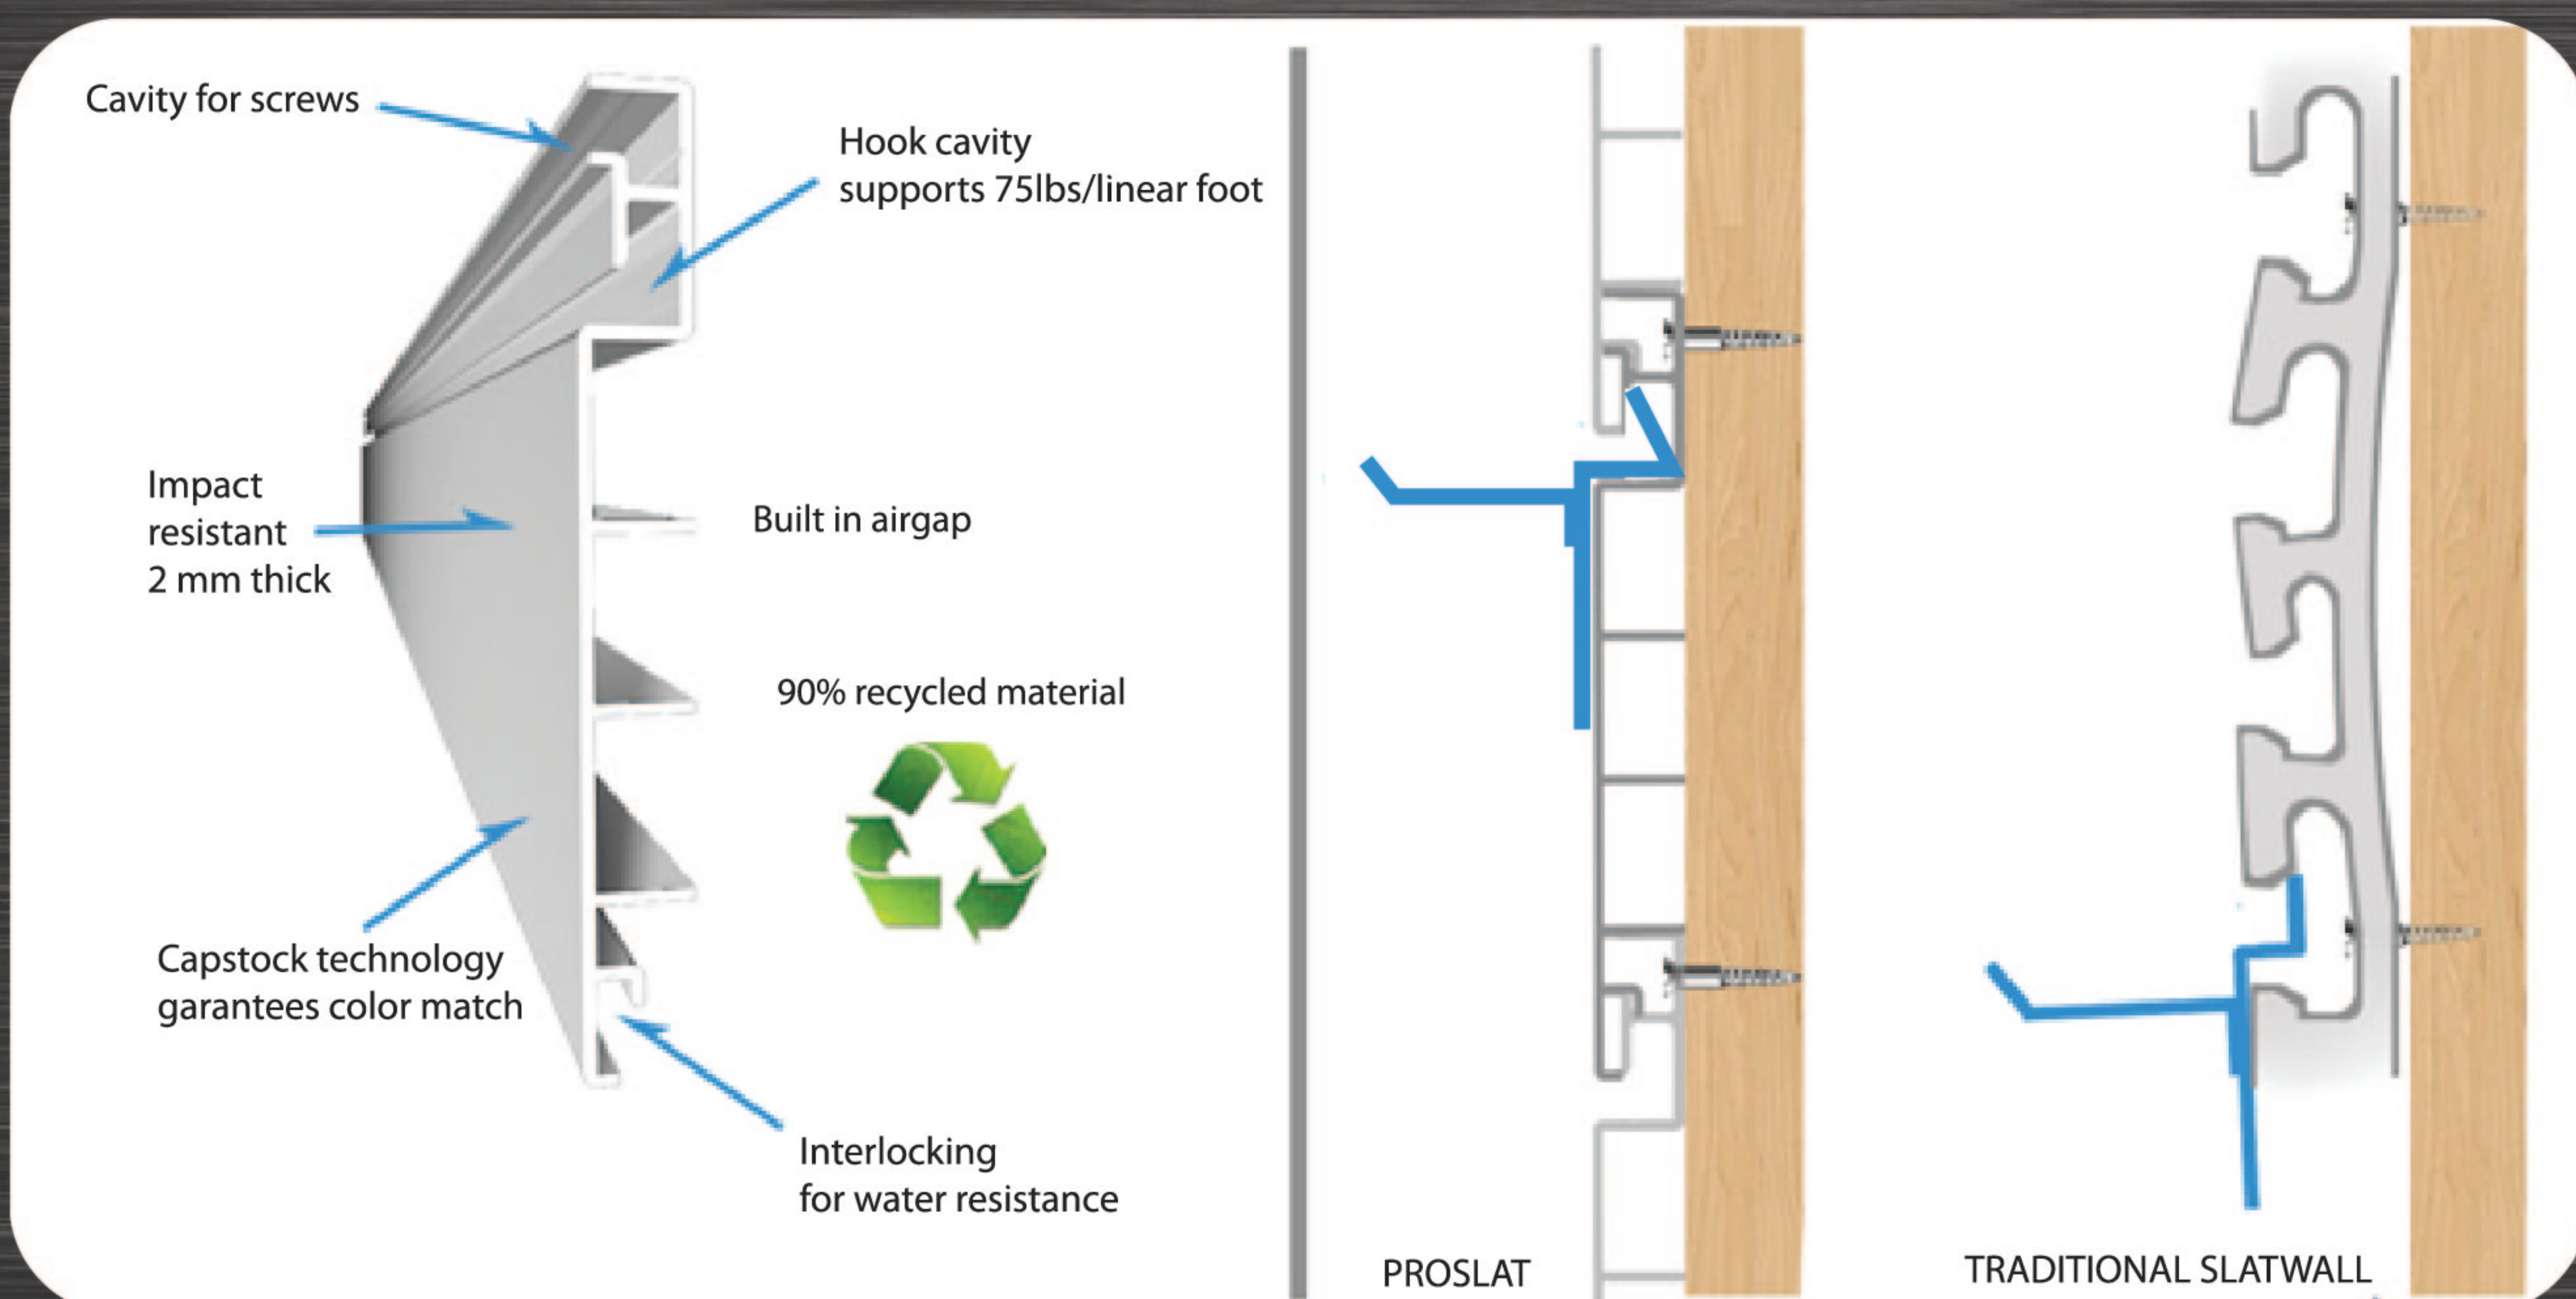

Off the floor. Isn't that really what organizing is all about? Getting things off the floor so you can find them when you need them? Hiding your clutter behind a cabinet door doesn't solve the problem. Proslat allows you to see what you are hanging up for easy access and fast clean up.

Simple. Our panels are simple to install with screws going through the panel into your wall studs. Proslat's patented hidden screw design allows you to make a mistake, correct it and move on. The next panel will "forgive" any previous errors.

Low cost. You will find the price per square foot of a Proslat wall solution is unbeatable. Our multiple choice configurations will fit into any budget.

Attractive. The clean look of a Proslat wall is often confused with standard siding. The concealed screw design takes away the worry of screws rusting from washing down the walls. Our waterproof panels will look good for years to come.

Tailored. Your life isn't static – your storage solution shouldn't be either. The versatility of a Proslat wall solution allows you to design your own organizing system today and change it as your needs change.

Racks & Probins

Proslat's heavy duty wall racks are built to last. Our sturdy racks are wall mounted – no need to struggle with overhead mounting – and can support up to 350 lbs each. The tire rack supports up to 4 tires (11.5" wide).

Both racks were designed to be hung from a Proslat wall panel or mounted to an existing wall. Brackets for both mounts are included.

Our Probins have a high load bearing capacity despite their lightweight construction. They are easy to clean and hang and offer maximum storage possibilities.

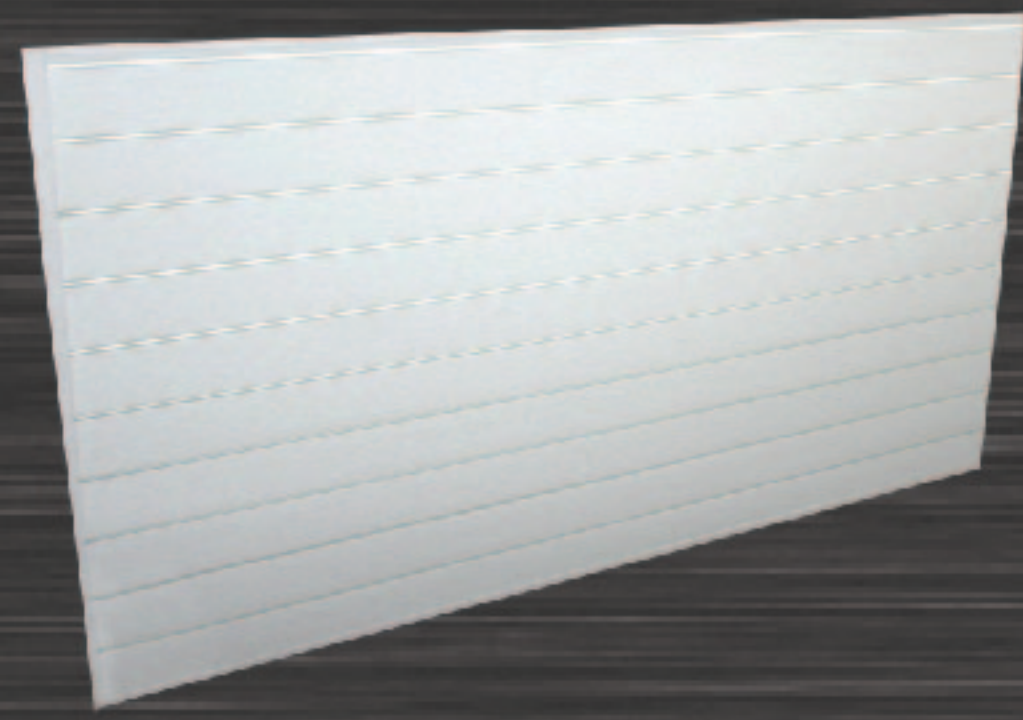

Cabinets

Proslat's metal cabinets are built with versatility in mind. Our extra deep wall mount cabinet can hold up to 12 paint gallons and still have room to spare. Our rolling cabinets have ball bearing slides and 4 pivoting casters for easy manoeuvrability. The heavy duty workbench with its wall mounted design will take on any project you can throw at it. Buy as a set, or individually as you need them.

Features:

- 20 gauge steel
- Cabinets fully assembled
- Corrosion-resistant baked paint with matte black finish
- Powerful double magnetic door latch keeping doors securely shut
- All cabinets are fully lockable for added security
- 4 heavy duty pivoting, locking casters
